Subject to and following approval of resolutions at the AGM, application will be made for the new ordinary shares that are the subject of the placing to be admitted to trading on AIM, ASX and the JSE required.

The Placing Shares will represent approximately 23 per cent. of the enlarged share capital immediately following admission of the Placing Shares to trading on AIM.

The scale and pricing of this placement demonstrates the support for the potential of the Company's assets in a currently testing market. The proceeds of the transaction will be utilised in accelerating GVM's projects over the next 18 months in order to position the Company as a significant coal producer in Africa."
