#### **Resource Estimation:**

Resource estimations in this report have been compiled by Mr John Sparrow (Member of the South African Council of Natural Science Professions SACNASP) 400109/03, an independent geological and technical consultant with 26 years experience in the Southern African and Australian regions. Mr Sparrow has sufficient experience relevant to the assessment of this style of mineralization to qualify as a Competent Person as defined in the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves - the JORC Code - and has compiled a number of Competent Person's reports for various organizations for the JSE, ASX and TSE. Mr Sparrow consents to the inclusion of the information in this report in the form and context in which it appears.

#### Directors' Report

The Directors submit their report together with the financial statement of Coal of Africa Limited ("CoAL" or the "Company") and the consolidated accounts of the Company and its controlled entities (the "Consolidated Entity" or "Group") for the year ended 30 June 2008 and the Auditors' Report thereon.

#### **Directors**

The names of Directors in office at the date of this report are:

#### **Richard Linnell**

Non-Executive Chairman

Mr Linnell has been active in the resources and metals fields for over forty years and has significant global experience in the development and marketing of resources and commodities. He was the originator of the Bakubang Initiative, a Forum designed to revive the South African Mining Industry and which led to the establishment of the New Africa Mining Fund, of which he is Chairman of Trustees. He holds a number of other Directorships.

#### Simon Farrell

Managing Director

Mr Farrell has a Bachelor of Commerce from the University of Western Australia and an MBA from the Wharton School of the University of Pennsylvania. He has held a number of senior management and Board positions, principally in the resources sector over the last twenty years. He is currently a Director of LSE listed Kenmare Resources plc.

#### **Blair Sergeant**

Financial Director

Mr Sergeant graduated with a Bachelor of Business and a Post Graduate Diploma in Corporate Administration, both from Curtin University, WA. He is a member of the Chartered Institute of Company Secretaries and an Associate of the Australian Society of Certified Practising Accountants. Mr Sergeant's experience includes senior management and executive positions with numerous listed public companies across a broad spectrum of industry internationally and he is currently a Non-executive Director of ASX listed Contact Uranium Limited and Vmoto Limited.

#### **Peter Cordin**

Non-Executive Director

Mr Cordin has a Bachelor of Engineering from the University of Western Australia and is well experienced in the evaluation, development and operation of resource projects within Australia and overseas. He is the Managing Director of ASX listed Dragon Mining Limited.

#### **Steve Bywater**

Non-Executive Director

Mr Bywater has a distinguished career in the resources industry developing and operating a total of 14 large-scale open pit mining operations. When working for Rio Tinto Coal Australia, he was Chief Operating Officer, and in this position oversaw seven mining operations, producing 60 million tonnes of saleable coal a year. Steve has a B.Sc. in Engineering Geology and Geotechinics from Portsmouth University and a M.Sc. in Rock Mechanics and Excavation Engineering from Newcastle-upon-Tyne. He is also Chief Executive of GCM Resources Plc.

# **Directorships in other listed entities**

Directorships of other listed entities held by Directors of the Company during the last 3 years immediately before the end of the year are as follows:

|                    |   | Period of Directorship |                            |
|--------------------|---|------------------------|----------------------------|
| Director           | Company   | From                   | То                         |
| Mr Richard Linnell | Namakwa Diamond Company NL  | 2003                   | Present                    |

# **Meetings of Directors**

The following table sets out the number of meetings of the Company's Directors held during the year ended 30 June 2008 that each Director was eligible to attend and the number of meetings attended by each Director:—

|                         | Board Meetings |          |  |  |
|-------------------------|----------------|----------|--|--|
| Director                | Held           | Attended |  |  |
| Mr R Linnell            | 7              | 7        |  |  |
| Mr S Farrell            | 7              | 7        |  |  |
| Ms N Mazwai (resigned)  | 4              | 4        |  |  |
| Mr P Cordin             | 7              | 5        |  |  |
| Mr S Bywater            | 7              | 5        |  |  |
| Mr G Taggart (resigned) | 4              | 4        |  |  |
| Mr N Moloi (resigned)   | 4              | 4        |  |  |
| Mr B Sergeant           | 7              | 6        |  |  |

#### **Principal Activities**

The principal activity of the Consolidated Entity is the exploration and development of its coal interests in South Africa. The manufacture and distribution of nickel and magnesium alloys is no longer considered to be the primary focus of the Company. During the June 2008 financial year the Company completed the acquisition of significant coal interests, namely:

- Acquisition of a 70% interest in the Mooiplaats coal project in February 2008.
- Acquisition of the remaining 30% of the Mooiplaats coal project in April 2008.
- Replacement of Motjoli Resources (Pty) Ltd by companies associated with the Mvelaphanda Group as a significant shareholder and CoAL's Black Economic Empowerment partner in South Africa. The change enables the Company to comply with the BEE ownership as stipulated in the South African Minerals and Petroleum Resources Development Act
- ArcelorMittal, currently CoAL's second largest shareholder and the world's largest steel producer, agreed to purchase between 2.5 and 5 million tonnes p.a. of hard coking coal from the Company's Makhado and Vele projects located in the Limpopo province.

#### Results

The loss of the Consolidated Entity for the 2008 financial year after income tax and minority interests was \$11,243,563 (2007: loss of \$4,026,048).

#### **Dividends Paid or Recommended**

No amounts were paid or declared by way of dividend by the Company. The Directors do not recommend payment of a dividend in respect of the financial year ended 30 June 2008.

#### **Share Issues**

The Company raised over \$331 million during the year through share placements for the acquisition and development of projects. At the November 2007 Annual General Meeting of shareholders, a resolution was approved providing for the issue of up to 50 million CoAL shares to raise working capital. Pursuant to this, the Company placed 65 million shares with clients of Blue Oar Securities Plc and Mirabaud Securities Limited raising GBP42.25 million before costs. A further 15 million shares were issued to predominantly sophisticated retail investor clients of Euroz Securities Limited. The funds will be used to finance the acquisition, exploration, working capital and development costs of CoAL projects.

Approval at the November 2007 Annual General Meeting was also obtained for the issue of up to 13,333,33 shares to be used in part satisfaction of the completion of the Mooiplaats acquisition. 8,888,888 of the shares approved were issued in 2007 with the remaining 4,444,445 issued in February 2008 for the acquisition of 70% of the Mooiplaats coal project.

On 22 January 2008, Signet Mining Services (Pty) Ltd, a broad based Black Economic Empowerment company acquired 5,282,117 shares belonging to the Company's former Directors, Nchakha Moloi and Nonkqubela Mazwai and Motjoli Resources (Pty) Ltd, the private company owned and controlled by Mr Moloi and Ms Mazwai. Further to this announcement and the satisfaction of conditions, Signet Mining Services (Pty) Ltd through African Global Capital LP I exercised its option to acquire 28,528,395 shares representing 9.59% of the issued capital of the Company. The option formed tranche 2 of the agreement pertaining to the disposal of shares by the Company's former Directors.

On the 8 April 2008, shareholders ratified the shares already issued during the June 2008 financial year and approved the issue of additional shares for the acquisition of the remaining 30% of the Mooiplaats project as well as the issue of 100 million shares for working capital should the company require. Five million shares were issued finalising the acquisition of the 30% portion of the Mooiplaats coal project.

On the 23 April 2008, the Company issued 46,365,000 shares to ArcelorMittal raising gross proceeds of GBP51,465,150 and increasing ArcelorMittal's shareholding in the Company to 52,659,419 shares. The placement of the second tranche of 13,635,000 shares to ArcelorMittal was subject to approval from the Australian Foreign Investment Review Board which was obtained in June 2008, raising an additional GBP15.1 million.

### **Directors' Report**

CoAL announced on the 13 June 2008 that it had reached agreement securing long term Black Economic Empowerment status. Coal Investment Limited ("CIL") will subscribe for shares and options which if exercised will result in African Global Capital I LP, CIL and their affiliates holding in excess of 26% of the Company. The agreement consists of CoAL issuing 37,500,000 to CIL, of which 25,500,000 were issued in June 2008. AGC is the first fund managed by the recently formed private equity initiative involving Mvelaphanda Holdings (Pty) Ltd, OZ Management LP, an operating entity of Och-Ziff Capital Management Group LLC and Palladino Holdings Ltd (CIL is owned by affiliated investment funds of Och-Ziff).

#### **Disposal of the Holfontein Coal Project**

An agreement has been concluded to sell the Holfontein coal project to Lachlan Star Limited and as a result of the intended disposal, the Holfontein investment has been reclassified as a Non-Current Investment Held for Sale. The total consideration for the project is \$25 million payable in a mix of cash and shares and staged at key milestones. The transaction also includes an option agreement covering the neighbouring Holfontein farm. The transaction will include an upfront payment on transfer of the project and a series of milestone payments relating to the granting of a New Order Mining Right and certain production targets. The payment terms are as follows:

- Payment of \$15 million consisting of \$9 million cash upon transfer of the project tenements to a subsidiary of Lachlan Star Limited;
- A cash payment of \$1 million and a share payment \$2 million (prices at Lachlan Star's VWAP 30 days prior to the
  payment) upon grant of the New Order Mining Right;
- Cash payment of \$2 million and a share payment of \$3 million (priced at Lachlan Star's 30 day VWAP prior to the
  payment) upon production of an aggregate of 500,000 tonnes of saleable coal; and
- A cash payment of \$1 million and a share payment of \$1 million (priced at Lachlan Star's 30 day VWAP prior to the
  payment) upon production of an aggregate of 1,500,000 tonnes of saleable coal.

The transaction is conditional upon the following:

- Approval from all relevant regulatory bodies in South Africa for the transfer of title in the project to Lachlan Star's nominated subsidiary;
- Assignment of CoAL's rights under the Wildebeesfontein agreement dated 3 December 2007, to Lachlan Star;
- Approval by Lachlan Star's shareholders of the transaction; and
- Legal due diligence.

Following the conclusion of the sale, CoAL will be the largest shareholder in Lachlan Star.

#### Disposal of interest in SA Mineral Resources Corporation Limited ('Samroc')

Samroc is a Johannesburg Stock Exchange listed company which produces manganese sulphate chemicals. During the financial year, CoAL disposed of its remaining investment in Samroc.

#### **Operations**

During the year the operations of the Consolidated Entity included:

Mooiplaats coal project - based in the Mpumalanga province;

Makhado (previously Baobab) coal project - based in the Limpopo province;

Vele (previously Thuli) coal project - based in the Limpopo province.

Holfontein coal project - based in the Mpumalanga province;

NiMag Group - manufacturing and distribution of nickel and magnesium alloys;

Master Alloy Traders Limited - trading of minerals from South Africa.

#### **Mooiplaats Thermal Coal Project (100%)**

During the year CoAL acquired 70% of the Mooiplaats coal project in February and the remaining 30% in April 2008 which included the Mining Rights for portions one and nine of the farm Mooiplaats as well as Prospecting Rights for various neighbouring farms. New Order Prospecting Rights for the farms De Emigratie, Willemsdal and Klipfontein encompassing an area of 9,260 Ha were secured and the Directors believe that these farms have the potential to add significant additional coal resources to the project.

The Mooiplaats coal project currently has coal resources of 113 million tonnes of which 88.2 million tonnes are 'Measured' in terms of the JORC/ SAMREC codes consisting of mainly bituminous (thermal) and lean coal. The Mooiplaats coal project is situated less than two kilometres from the recently re-commissioned Camden power station near Ermelo in the Mpumalanga province of South Africa. An in-fill drilling programme of over 37,000 metres was completed during the financial year taking the exploration metres drilled on the project to over 65,000 metres. Additional holes were drilled to enable water monitoring and production holes were drilled to confirm production expectations. Results of the production related drilling were included the geological model, allowing for the finalisation of production scheduling and the mining contract. The Company re-built the geological model internally to verify the model presented by the potential contract miner. This model has been submitted to independent mine planners who are generating life-of-mine schedules.

Negotiations with the surface rights owner were concluded allowing access to the mine site as well as de-watering and rehabilitation of the existing decline shaft and preparation of the surrounding areas for mining activity. Mining is expected to commence towards the end of 2008 followed soon thereafter by production. Negotiations with the contract miner have been finalised and the supply of mining equipment and infrastructure have been secured with delivery of the first Continuous Mining machine scheduled for October 2008. The supply of the wash plant has been secured with commissioning of the plant expected by the end of February 2009. Additional production related drilling and drilling to identify the site for the second decline shaft has commenced on the neighbouring farms, Klipbank and Adrianople.

Discussions with potential off-take customers progressed during the period under review and included the potential export of lean coal to Europe. The Company signed a non-exclusive marketing agreement for the project with Oreport (Pty) Ltd and secured long term port allocation through the Richards Bay dry bulk terminal operated by subsidiaries of Grindrod Limited. The throughput agreement provides CoAL with an allocation of 900,000 tonnes of coal per annum commencing in 2009 and the ability to secure 50% of any increased capacity at the terminal. The increased capacity will require pro rata funding by CoAL but gives the Company the potential to increase its export capacity to 3 million tonnes per annum once the terminal expansion has been completed.

#### Makhado (previously Baobab) Coking Coal Project (100%)

Extensive exploration activities and infrastructure studies were undertaken on the 100% owned Makhado coal project near Louis Trichardt in South Africa's Limpopo province. A detailed Aeromagnetic survey covering over 60,000 ha was completed and included the Makhado, Vele and Tshikunda project areas and the results of the survey were used to compile an indepth geophysical analysis. The acquisition and digitisation of historical drilling data relating to 1,200 boreholes from Exxaro Resources Limited, aided in the upgrade of the Makhado resource to over 1.3 billion tonnes of which over 230 million tonnes are in the 'Measured' category. The upgraded models using the acquired data have been submitted to independent mine planners who are in the process of completing life-of-mine schedules.

Large diameter (123 mm) core drilling commenced to obtain coal samples for detailed coking coal laboratory analysis as well as other coal parameter testing. The initial results of this analysis yielded high quality coking coal samples with a low phosphorous content. A further 5,000 metre smaller diameter drilling programme is underway to define the coal outcrop zones and identify any dolerite intrusions. Detailed analysis of the exploration data was relating to the selection of mineable coal horizons within the 35 metre thick coal seam was completed and will be used to optimise the coal horizon being mined leading to higher coking coal yields.

The Company agreed to acquire several New Order Prospecting Rights in the proximity of the Makhado coal project. CoAL signed an agreement to purchase of 60% of Tshikunda Mining (Pty) Ltd which holds the prospecting rights to 32,000 Ha contiguous to Exxaro Resources Ltd's Tshikondeni coking coal mine. Section 11 approval for the transfer of 60% of Tshikunda prospect to CoAL was secured in June 2008. Furthermore, CoAL agreed to buy 74% of six prospects located in the Makhado coal project area, from Sekoko Coal (Pty) Ltd. The acquisition of the six prospects increases the Makhado project area by over 7,000 Ha.

Initial marketing of the coking coal fraction will be finalised on completion of a formal off-take agreement with ArcelorMittal who have signed a Letter of Intent which includes an off-take of between 2.5 and 5 million tonnes "free on rail" Musina but paying "free on board" Kestrel (east coast of Australia) coking coal prices. Other major consumers have already expressed strong interest in securing a supply of hard coking coal from the Makhado project and discussions in this respect are ongoing.

East Coast Maritime (Pty) Ltd were appointed to asses railway, road and port infrastructure required for the Makhado and Vele projects. During the year, two phases of the project were completed - the assessment if infrastructure in place and, the development of understandings and relationships with the various infrastructure stakeholders. A Rail Cooperation

#### Directors' Report

Agreement was signed with Transnet Freight Rail ('TFR') the largest division of Transnet, the South African Government owned rail and freight organisation. The agreement formalises the interaction between TRF and CoAL whereby TFR will assist CoAL in securing the correct rail slots, appropriate rolling stock as well as commercially competitive freight rates for the transport of its export coal to the Richards Bay and Maputo ports. CoAL has indicated that it will need rail capacity for the following export tonnages:

- 2009 1 to 1.5 million tonnes
- 2010 4 to 5 million tonnes
- 2011 4 to 5 million tonnes
- 2012 10 million tonnes

#### Vele (previously Thuli) Coking Coal Project (74%)

Exploration on the Vele coal project west of Musina in the Limpopo province included a 65 hole geological programme as well as a 31 large diameter cored hole programme. CoAL acquired the original drilling data from the exploration undertaken by Southern Sphere (Utah Mining) in the early 1980's and converted the data to digital format. The completed drilling programmes together with the historical data, resulted in an upgrade of the previously reported JORC/ SAMREC compliant 'Indicated' resource. The 65 hole programme covered approximately 80% of the project area and delivered a resource of 447.47 million gross in situ tonnes, of which 133.84 million tonnes occur in the Measured status while 76.58 million tonnes are in the Indicated status with the majority of coal being open-castable.

#### **Holfontein Coal Project (100%)**

An agreement has been concluded to sell the Holfontein coal project to Lachlan Star Limited and as a result of the intended disposal, the Holfontein investment has been reclassified as a Non-Current Investment Held for Sale.

#### Nimag Group ("NiMag") (100%)

Nimag Group is engaged principally in the manufacture and distribution of nickel magnesium alloys, ferro silicon magnesium alloys and metal fibres, having begun producing alloys in 1962, and currently manufactures specialised master alloys of nickel and magnesium for the specialised foundry industry including aerospace, aeronautical, motor, steel mill roll and associated industries.

Ductile iron (also called spheroidal graphite iron or nodular cast iron) was discovered in the 1940s. The introduction of magnesium into the melt results in nodular rather than flaky graphite in the resultant cast iron, giving the cast iron properties approaching those of steel, while maintaining the advantages of the casting process. The magnesium is usually added as a nickel alloy, making it easier to add and contribute to product quality. NiMag supplies the ductile iron market as a specialist supplier with a world market share of about 35% in its core product line. 95% of sales are exported through 35 distributors world wide. Demand for NiMag's alloys is proportional with world demand for ductile iron, principally for automotive parts and industrial machinery. Demand for NiMag products has grown gradually to meet current capacity of 287 tonnes per month (all products). Potential for expansion of the core nickel-magnesium alloy product is presently limited by the size of end markets. NiMag is increasing the penetration of a variety of other products developed for alternative markets. NiMag produces approximately 300 tonnes of cast and slit fibres which are used in reinforced concrete by domestic mining and tunnelling operations.

NiMag's competitive advantages include low electricity and labour costs. The main input cost is locally sourced nickel raw material, which is matched with sales to minimise nickel price exposure.

Depreciation of global nickel prices in the 2007/08 financial year reduced NiMag's margins resulting in the company generating lower operational cash flows than those recorded in the previous year. NiMag traded profitably, contributing approximately A\$2.5m in surplus funds to the Group and at the end of June 2008, CoAL's acquisition loans comprised \$187,629 to the NiMag vendors.

#### **Magberg Manufacturing**

A specialised producer of ferro silicon magnesium alloys used to manufacture Ductile Iron. Capacity is limited and the production is split equally between local and export markets. This is a commodity product and almost all costs are Rand denominated.

#### Metalloy Fibres (Pty) Ltd

The only specialised cast fibre reinforcing manufacturer in Africa. A weakening of the Rand and the construction of the Gautrain rail project and other large infrastructure projects in South Africa promises to substantially improve this business both in terms of volumes and margins. A new furnace has been constructed to ensure that manufacturing capacity is on hand to satisfy the expected increase in demand.

#### Metal Alloy Traders Limited ("MATS")

MATS is incorporated in Jersey in the Channel Islands and it trades various metals purchased from Nimag in South Africa.

#### **Review of Financial Position**

#### Liquidity and funding

The net assets of the Consolidated Entity increased from \$151 million in June 2007 to over \$490 million in June 2008. This was primarily due to cash on hand at year end of \$252 million (2007: \$61.5 million) and the acquisition of the Mooiplaats coal project. The Group incurred \$4.1 million in expenses related to share based payments and \$10,503,875 in foreign currency losses. Excluding the previously mentioned accounting entries converts the loss of \$11,243,563 recorded for the year ended June 2008 to an 'operational' loss of \$1,159,640 (2007: 'operational' profit of \$4,994,231). The reduction of the 'operational' loss is primarily due to interest earned of \$5,787,101 and NiMag's profit contribution of \$2,512,274.

#### **EBIT Reconstruction**

| EDIT RECOIST UCTION                   | 2008<br>\$   | 2007<br>\$  |
|---------------------------------------|--------------|-------------|
| Profit/ (loss) after tax for the year | (11,243,563) | (3,547,306) |
| Tax                                   | 919,603      | 2,216,264   |
| Interest paid                         | 146,174      | 800,799     |
| Interest received                     | (5,787,101)  | (555,353)   |
| EBIT/ (LBIT)                          | (15,964,887) | (1,085,596) |
| 'Non-ordinary' items recognised       |              |             |
| Options granted                       | 4,099,000    | 3,294,600   |
| Diminution in value of investments    | -            | 1,666,792   |

| Depreciation                          | 202,372      | 175,532     |
| JSE listing expenses                  | -            | 313,870     |
| 'Operating' profit/ (loss)            | (1,159,640)  | 4,994,231   |

The Group raised over \$331 million during the year through the placing of shares. The funds raised were used to fund the Mooiplaats project acquisition, the development of the Mooiplaats project and the exploration and development of the Makhado and Vele projects.

#### Impact of legislation and other external requirements

There were no changes in environmental or other legislative requirements during the year that have significantly impacted the results or operations of the Consolidated Entity.

#### **Future Developments, Prospects and Business Strategies**

#### Strategic direction

CoAL is primarily focused on the acquisition, exploration and development of thermal and metallurgical coal projects in South Africa. The Company currently has four coal projects in various stages of exploration as well as Nimag, CoAL's interim cash producing asset which manufactures nickel magnesium alloys. Nimag's growth strategy will be via the acquisition of similar alloy or foundry supply manufacturing enterprises.

The exploration and development of three coal projects, namely Mooiplaats, Makhado and Vele during the short and medium term will qualify CoAL as a significant coal producer, supplying millions of tonnes of thermal and metallurgical coal annually to South African and export customers.

Exploration on CoAL's projects located in the Limpopo province – Makhado and Vele – has yielded significant coal resources. Recent resource updates have Makhado at 1.33 billion tonnes and Vele at 447.47 million tonnes. Consultants have undertaken detailed feasibility studies on the transport infrastructure from these coal projects to the Matola (Maputo) and Richards Bay export coal terminals.

The Company's Mooiplaats coal project is 2km from the recently re-commissioned Camden Power Station - near Ermelo in Mpumalanga - and is expected to start producing thermal and lean coal in late 2008.

## **Changes in State of Affairs**

Significant changes in the state of affairs of the Consolidated Entity during the financial year were as follows:

| Shares              |                  |   |               |

| 10 April 2008       | Granted as remuneration to the CoAL Financial Director in accordance with shareholder approval granted at the Company's 2007 AGM.                   | 1,000,000 | 30 September<br>2012 | \$1.90            |
| 19 May 2008         | Granted to employees in South Africa as an incentive for performance and in accordance with shareholder approval granted at the Company's 2007 AGM. | 600,000   | 1 May 2012           | \$1.25            |
| 19 May 2008         | Granted to employees in South Africa as an incentive for performance and in accordance with shareholder approval granted at the Company's 2007 AGM. | 250,000   | 1 May 2012           | \$2.05            |

The Company acquired the Mooiplaats coal project during the year and over \$331 million was raised through the issue of equity. The funds will be used for the acquisition, exploration and development of the coal projects.

## **Likely Developments**

CoAL will continue to expand its coal interests in Southern Africa and is in the process of establishing its first operating coal mine in South Africa, namely the Mooiplaats coal project. The Company will also pursue potential investment opportunities in the mining and metal processing industries during the forthcoming year.

#### **Events Subsequent to Balance Date**

#### **Rio Tinto Joint Venture and Farm Swap**

CoAL announced in early July that it has entered a Memorandum of Understanding with Rio Tinto ('Chapudi Coal') and its joint venture partner, the Kwezi Group of South Africa, which the parties intend to formalise into an agreement resulting in the transfer of Prospecting Rights to each other or a separate joint venture initiative. The Prospects to be transferred are coal interests in and around the Company's Makhado hard coking coal project in the Limpopo province. The Prospects to be transferred to a new joint venture between Rio Tinto and CoAL will be managed by Chapudi Coal. Transfer of the Prospects will add significant, highly prospective acreage to the current Makhado project area improving the economics of the project.

#### Makhado coking coal project Resource Upgrade

In July 2008, CoAL announced a resource upgrade to the Makhado coal project from the previously reported 713mt to 1.335 billion gross in situ tones. The resource upgrade is a result of further analysis of the borehole data acquired from Exxaro Resources Limited as well as the drilling of boreholes by CoAL. The 1.335 billion tonnes are situated on six farms representing approximately 40% of the Makhado project area and can be summarized as follows:

|                | In Situ Resource<br>Million metric tonnes | Rel Tonnes % | Opencast<br>Million metric tonnes | Rel Tonnes % |
|----------------|---|--------------|-----------------------------------|--------------|
| Measured       | 230.067                                   | 17.233%      | 208.364                           | 37.847%      |
| Indicated      | 548.642                                   | 41.095%      | 201.797                           | 36.690%      |
| Inferred       | 250.690                                   | 18.777%      | 25.445                            | 4.613%       |
| Reconnaissance | 305.660                                   | 22.895%      | 114.771                           | 20.853%      |
|                | 1,335,06                                  | 100.00%      | 550.377                           | 100.00%      |

#### Vele semi-soft coking coal project Resource Upgrade

As a result of analysis of exploration data, the Company issued a Resource upgrade for its Vele coal project increasing the resource from 441 gross in situ tonnes to 721 total in situ tonnes which incorporates 641 gross in situ tonnes. The table below details the upgrade:

| Total In S    | itu     | Gross In Situ                                   | In Situ Mineable   |
|---------------|---------|---|--|
| 721<br>tonnes | million | 641 million tonnes                              | 593 million tonnes – includes 158 million tonnes Measured and 324 million tonnes Indicated |
|               |         | (Gross in situ incorporates open castable coal) | (In situ Mineable incorporates potential geological losses)                                |

#### **Black Empowerment Transaction**

Coal Investments Limited, a company forming part of the Company's current Black Empowerment Enterprise Investors increased its shareholding in the Company to approximately 17.3% after receiving FIRB approval to increase its stake beyond 15%. During August, CoAL issued the additional 12,000,000 shares at GBP1.30 per share raising an additional GBP15.6 million.

#### **Port Allocation**

Coal of Africa Limited secured long term export coal port allocation at the Grindrod operated Richards Bay and Maputo dry bulk terminals. The export of metallurgical coal mined at its Makhado and Vele projects is expected to take place via the Maputo terminal and CoAL has secured the rights to up to 100% of the capacity resulting from expansion to the Maputo terminal enabling CoAL to potentially export up to 7mtpa. The export of thermal coal mined at the Company's Mooiplaats project will be exported at the Richards Bay terminals with an allocation of 900,000 tonnes commencing in 2009 which could increase to 3 million tonnes per annum if port capacity is increased. The Company will contribute capital on a pro rata basis to development at both the Richards Bay and Maputo terminals.

Other than that stated above, there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company, to affect significantly the operations of the Consolidated Entity, the results of those operations, or the state of affairs of the Consolidated Entity, in future financial years.

#### **Options**

#### Options granted during the year

The Company granted a total of 3,850,000 options over unissued ordinary shares to employees and as payment for services rendered during the financial year. No options over unissued shares were granted between the end of the financial year and the date of this report.

#### Unissued shares under option

The following options remain outstanding at the date of this report:

|                          | Number    | Exercise Price | Expiry Date       |
|--------------------------|-----------|----------------|-------------------|
| Class C Unlisted Options | 196,688   | GBP 0.34       | 17 May 2009       |
| Class E Unlisted Options | 934,114*  | GBP 0.65       | 30 November 2009  |
| Class A Unlisted Options | 9,250,000 | A\$ 0.50       | 30 September 2011 |
| Class B Unlisted Options | 250,000   | A\$ 2.05       | 1 May 2012        |
| Class H Unlisted Options | 600,000   | A\$ 1.25       | 1 May 2012        |
| Class D Unlisted Options | 7,000,000 | A\$ 1.25       | 30 September 2012 |
| Class G Unlisted Options | 1,000,000 | A\$ 1.90       | 30 September 2012 |
|                          |           |                |                   |

<sup>\* 690,886</sup> Class E Options were exercised on 3 July 2008

These options do not entitle the holder to participate in any share issue of any other body corporate.

5,770,638 shares have were issued during the year as a result of parties exercising their options.

#### Lapse of options

No options lapsed during the financial year.

### **Environmental Regulation**

The Consolidated Entity's operations are not subject to any significant environmental regulations under either Commonwealth or State legislation but are subject to numerous environmental regulations in South Africa, including the Atmospheric Pollution Prevention Act (No. 45 of 1965), Environment Conservation Act (No. 73 of 1989), National Water Act (No. 45 of 1965) and National Environmental Management Act (No. 107 of 1998). The Board believes that the Consolidated Entity has adequate systems in place for the management of its environmental regulations and is not aware of any breach of those environmental requirements as they apply to the Consolidated Entity.

#### **Directors' Interests**

The relevant interest of each Director of the Company in shares and options of the Company at the date of this report is:-

| Coal of Africa Limited       |                 |                   |                     |  |  |  |

<sup>1.</sup> The 9,000,000 options and shares are held by Mr Farrell directly.

<sup>2. 751,550</sup> shares held by Ord Group Pty Ltd <No 2 Account> as trustee for Terra Africa Investments Ltd of which Mr Linnell is a beneficiary. The 4,000,000 options and balance of shares are held by Mr Linnell directly.

<sup>3.</sup> All shares and options are held by Cordin Pty Ltd, of which Mr Cordin is a Director.

# COAL OF AFRICA LIMITED Directors' Report

### **Remuneration Report**

The Board is responsible for establishing remuneration packages applicable to the Board members of the Company. The policy adopted by the Board is to ensure that remuneration properly reflects an individual's duties and responsibilities and that remuneration is competitive in attracting, retaining and motivating people of the highest calibre.

Directors' remuneration packages are also assessed in the light of the condition of markets within which the Company operates, the Company's financial condition and the individual's contribution to the achievement of corporate objectives. Executive Directors are remunerated by way of a salary or consultancy fees, commensurate with their required level of services. Total remuneration for all non-executive Directors, approved by shareholders at the June 2007 General Meeting, is not to exceed \$300,000 per annum.

The Board has nominated a Remuneration Committee which is made up as follows: Steve Bywater (Chairman), Richard Linnell, and Peter Cordin. The Company does not have any scheme relating to retirement benefits for non-executive Directors.

The remuneration packages applicable to the Board and executive officers of Nimag are reviewed annually by the Board of Nimag and terms and conditions documented in formal employment contracts.

Details of the nature and amount of each major element of the remuneration of each Director and other key management personnel of the Company and the Consolidated Entity for the year are:

#### Remuneration of Directors and Key Management Personnel

#### **Directors' Report**

| Personnel |         |   |   |   |         |
|-----------|---------|---|---|---|---------|
| 2007      | 408,912 | - | - | - | 408,912 |

#### **Employment Contracts of Directors and Key Management Personnel**

The Company has entered into a formal contractual agreement with the Managing Director and the Financial Director only and not with any member of the Board, including the Managing Director.

The employment conditions of the following specified executives have been formalised in contracts of employment:

- 1. Mr T Sinclair is employed by Nimag (Proprietary) Limited in the capacity of Managing Director. The agreement commenced on 12 December 2003 for a minimum of 3 years and a maximum of 5 years. The agreement may be terminated by written notice of 12 months;
- 2. Mr B Sinclair is employed by Nimag (Proprietary) Limited in the capacity of Financial Director and is entitled to receive R29,250 per month. The agreement commenced on 12 December 2003 for an initial term of 12 months. The agreement may be terminated by written notice of 3 months.

### Share-Based Compensation - Options Granted to Directors and Officers of the Company

The following options were granted during the year pursuant to shareholder approval:

| Names of<br>Directors | Number    | Exercise<br>Price | Expiry Date       | Value per option at<br>Grant Date | Date Exercisable            |
|-----------------------|-----------|-------------------|-------------------|-----------------------------------|-----------------------------|
| Mr B Sergeant         | 1,000,000 | 190.0 cents       | 30 September 2012 | 10 April 2008                     | Exercisable from grant date |

All options are granted for no consideration and carry no dividend or voting rights. When exercised, each option is convertible into one ordinary share.

The names of all persons who currently hold options granted under the Employee Option Plan are entered into a register kept by the Company pursuant to Section 216C of the Corporations Act 2001 and the register may be inspected free of charge.

#### **Directors' Insurances**

During the financial year the Company paid \$21,050 for insurance premiums in respect of Directors' and Officers' Liability insurance. The Company did not pay legal expense insurance contracts for current Directors and Secretaries of the Company and its controlled entities.

#### **Non-Audit Services**

During the prior year, the auditor of the Company's South African based subsidiaries (Moore Stephens MWM) performed certain services in addition to their statutory duties in relation to CoAL's South African operations. The taxation services supplied by the auditors was terminated during the 2008 financial year with the appointment of an alternate advisor, and the Company's auditors commenced their appointment fulfilling secretarial and audit functions only.

The Board has considered the non-audit services provided during the year by the auditor and is satisfied that the provision of these non-audit services during the prior year by the auditor is compatible with, and did not compromise the audit independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services were subject to the corporate governance procedures adopted by the Company and have been reviewed by the Board to ensure they do not impact the integrity and objectivity of the auditor.
- the non-audit services provided do not undermine the general principles relating to auditor independence in accordance with APES 110: Code of Ethics for Professional Accountants set by the Accounting Professional and Ethical Standards Board.

A copy of the auditors' independence declaration as required under Section 307C of the Corporations Act is included with the Independent Audit Report.

# Directors' Report

The following fees for non-audit services were paid/ payable to the external auditors during the year ended 30 June 2007:

|                                   | Consolidated<br>2008 | Consolidated 2007 |
|-----------------------------------|----------------------|-------------------|
|                                   | \$                   | \$                |
| Taxation and secretarial services | 434                  | 9,225             |

## **Auditors' Independence Declaration to the Directors**

Refer to page 71 of the Financial Report.

Signed on this 30<sup>th</sup> day of September 2008 in accordance with a resolution of the Directors.

Simon Farrell
Managing Director

#### **Corporate Governance Statement**

Coal of Africa Limited has adopted systems of control and accountability as the basis for the administration of corporate governance. This statement summarises some of these policies and procedures.

The following additional information about the Company's corporate governance practices is set out on the Company's website at www.coalofafrica.com:

- Corporate governance disclosures and explanations;
- · Statement of Board and Management Functions;
- Nomination Committee Charter;
- policy and procedure for selection and appointment of new Directors;
- summary of code of conduct for Directors and key executives;
- · summary of policy on securities trading;
- Audit Committee Charter;
- policy and procedure for selection of external auditor and rotation of audit engagement partners;
- summary of policy and procedure for compliance with continuous disclosure requirements;
- summary of arrangements regarding communication with and participation of shareholders;
- summary of Company's risk management policy and internal compliance and control system;
- process for performance evaluation of the Board, Board committees, individual Directors and key executives;
- Remuneration Committee Charter; and
- Corporate Code of Conduct.

#### **ASX Best Practice Recommendations**

The ASX requires listed companies to include in their Annual Report a statement disclosing the extent to which they have complied with the ASX Best Practice Recommendations in the reporting period. The recommendations are not prescriptive and if a company considers that a recommendation is inappropriate having regard to its particular circumstances, the company has the flexibility not to adopt it. Where the Company considered it was not appropriate to presently comply with a particular recommendation the reasons are set out in this statement.

#### Role of the Board

The role of the Board is to provide leadership for and supervision over the Company's affairs. The Board is collectively responsible for promoting the success of the Company by:

- (a) supervising the Company's framework of control and accountability systems to enable risk to be assessed and managed, which includes but is not limited to:
- (b) ensuring the Company is properly managed, for example by:
  - (i) appointing and removing the Managing Director of the Company;
  - (ii) ratifying the appointment and, where appropriate, the removal of the Chief Financial Officer and the Company Secretary;
  - (iii) input into and final approval of management's development of corporate strategy and performance objectives;
  - (iv) reviewing and ratifying systems of risk management and internal compliance and control, codes of conduct, and legal compliance;
  - (v) monitoring senior management's performance and implementation of strategy, and ensuring appropriate resources are available;
- (c) approving and monitoring the progress of major capital expenditure, capital management, and acquisitions and divestitures;
- (d) approval of the annual budget;
- (e) monitoring the financial performance of the Company;
- (f) approving and monitoring financial and other reporting;

#### **Corporate Governance Statement**

- (g) overall corporate governance of the Company, including conducting regular reviews of the balance of responsibilities within the Company to ensure division of functions remain appropriate to the needs of the Company;
- (h) liaising with the Company's external auditors and Audit Committee; and
- (i) monitoring and ensuring compliance with all of the Company's legal obligations, in particular those obligations relating to the environment, native title, cultural heritage and occupational health and safety.

The Board must convene regular meetings with such frequency as is sufficient to appropriately discharge its responsibilities.

#### **Board Composition**

The Board comprises five Directors including two executive Directors, Managing Director, Simon Farrell and Finance Director, Blair Sergeant, and three non-executive, independent Directors, Chairman Richard Linnell, Steve Bywater and Peter Cordin. The Directors are subject to election by shareholders. All Directors, apart from the Managing Director, are subject to re-election by rotation within every three years. The Company's Constitution provides that one-third of the Directors retire by rotation at each AGM. Those Directors who are retiring may submit themselves for re-election by shareholders, including any Director appointed to fill a casual vacancy since the date of the previous AGM.

The composition of the Board is reviewed at least annually to ensure the balance of skills and experience is appropriate. The Directors have a broad range of qualifications, experience and expertise in the mining, processing and finance industries. The skills, experience and expertise of Directors are set out in the Directors' Report. The names of the Directors in office at the date of this report, the year they were first appointed, their status as non-executive, executive or independent Directors, are set out in the Directors' Report.

The Board has not established a Nomination Committee. The full Board carries out the functions of a Nomination Committee in accordance with the Nomination Committee Charter, available on the Company's website.

#### **Independence of Non-Executive Directors**

The Board considers an independent Director to be a non-executive Director who satisfies the test for independence as set out in the ASX Best Practice Recommendations ("Independence Test"). The Board considers that Messrs Richard Linnell, Steve Bywater, and Peter Cordin meet these criteria. Messrs Linnell, Bywater, and Cordin have no material business or contractual relationship with the Company, other than in their capacity as a Director of the company, and no conflicts of interest which could interfere with the exercise of independent judgment. Accordingly, they are considered to be independent.

#### **Independent Professional Advice**

The Board has adopted a formal policy on access to independent professional advice which provides that Directors are entitled to seek independent professional advice for the purposes of the proper performance of their duties. The Company will pay the reasonable expenses associated with obtaining such advice, subject to the prior approval of the Chairman.

#### Meetings

The Board held 7 scheduled meetings during the reporting year and no unscheduled meetings were held during that year. Senior management attended and made presentations at the Board Meetings as considered appropriate and was available for questioning by Directors.

#### **Evaluation of Board Performance**

During the reporting period an evaluation of the Board and its members was carried out on an informal basis. The evaluation process comprised of an ongoing assessment of each member of the Board and the Board as a whole at each meeting by the Chairman. Further, an informal evaluation of key executives was carried out by the Board. The Company is currently reviewing and determining measurable milestones and performance criteria for evaluation of Board performance. This includes the intention to establish more formal evaluation procedures, including quantitative measures of performance.

#### **Corporate Governance Statement**

#### **Remuneration Policies**

The Remuneration Committee operated in accordance with the Company's Remuneration Committee Charter required under ASX Best Practice Recommendation 9.2. Executive Directors and key executives are remunerated by way of a salary or consultancy fees, commensurate with their required level of services. Non-executive Directors however receive a fixed monthly fee for their services, in accordance with the guidelines summarised by Best Practice Recommendation 9.3. Non-executive Directors' fees are capped at \$300,000 per annum, as approved by shareholders.

Any equity based remuneration is made in accordance with shareholder approval. During the year, 1,000,000 options exercisable at \$1.90 on or before 30 September 2012 were issued to Blair Sergeant as part of his remuneration package when appointed as Finance Director. This issue was approved by shareholders at the Company's general meeting on 8 April 2008.

#### **Retirement benefits for Non-Executive Directors**

The Company does not have any scheme relating to retirement benefits for non-executive Directors.

#### **Board Committees**

During the year, the following committees operated in accordance with their nominated charters as required by ASX Best Practice Recommendation 9.2:

| Audit Committee            | Remuneration Committee   | Welfare, Health & Safety Committee |
|----------------------------|--------------------------|------------------------------------|
| Richard Linnell (Chairman) | Steve Bywater (Chairman) | Peter Cordin (Chairman)            |
| Steve Bywater              | Richard Linnell          | Richard Linnell                    |
| Peter Cordin               | Peter Cordin             | Steve Bywater                      |
| reter Corum                | reter corum              | Steve bywater                      |

#### **Arrangements Regarding Communications with and Participation of Shareholders**

The Board aims to ensure that shareholders are kept informed of all major developments affecting the Company. Information is communicated to shareholders through:

- continuous disclosure in the form of public announcements on ASX;
- annual and quarterly reports to shareholders;
- investor briefings;
- the meeting chairman's address delivered at the Annual General Meeting; and
- notices of all meetings of shareholders and explanatory notes of proposed resolutions.

In addition, information for shareholders is available on the Company's website: <a href="www.coalofafrica.com">www.coalofafrica.com</a> including recent announcements, presentations, past and current reports to shareholders, biographical information on Directors and information relating to operations.

Shareholders are encouraged to attend general meetings and to ask questions of Directors and senior management and also the Company's external auditors, who are requested to attend the Company's annual general meetings.

#### **Risk Management Policy and Internal Compliance Control System**

The Company has a detailed risk management policy and internal compliance and control systems which cover organisational, financial and operational aspects of the Company's affairs and includes the following:

- Financial reporting there is a comprehensive budgeting and forecasting system with updates provided to the Board at each Board meeting. Periodic reports are provided to the Board. Quarterly, half yearly and annual reports are prepared in accordance with the Corporations Act and ASX Listing Rules.
- The Managing Director and the Chief Financial Officer are required to confirm in writing that:

#### **Corporate Governance Statement**

- the Company's financial reports present a true and fair view, in all material respects, of the Company's financial condition and operational results are in accordance with relevant accounting standards.
- the above confirmation is founded on a sound system of risk management and internal compliance and control which implements the policies of the Board;
- the Company's risk management and internal compliance and control system is operating efficiently and effectively in all material respects.
- The Company has written policies covering health, safety and the environment.

The Board appoints the Managing Director as being responsible for ensuring the systems are maintained and complied with.

#### **Ethical Standards and Code of Conduct**

The Board is committed to promoting the practice of high ethical standards. A formal Code of Conduct has been developed to require all Directors and employees to act with the utmost integrity and objectivity, striving at all times to enhance the reputation and performance of the Company, in the following areas:

- professional conduct;
- dealings with suppliers, advisers and regulators;
- dealings with the community; and
- dealings with other employees.

#### **Policy on Securities Trading**

The Board has adopted a policy and procedure on dealing in the Company's securities by Directors, officer and employees which prohibits dealing in the Company's securities when those persons possess inside information. It also requires the Chairman of the Company to be notified when trading of securities in the Company occurs.

#### **Information Disclosure**

The Board is committed to the promotion of investor confidence by ensuring that trading in the Company's securities takes place in an efficient, competitive and informed market. In accordance with the continuous disclosure requirements under the ASX Listing Rules, the Company has procedures in place to ensure that all price sensitive information is identified, reviewed by management and disclosed to the ASX in a timely manner and that all information provided to the ASX is immediately available to shareholders and the market on the Company's website.

Analysts and press briefings are conducted following the release of half-year results, full-year results and major announcements and, from time to time, briefings with major shareholders are conducted in order to promote a better understanding of the Company. In conducting briefings, the Company takes care to ensure that any price sensitive information included in the content of briefings has already been made available to all shareholders and the market.

# Notes to and forming part of the Financial Statements for the year ended 30 June 2008

#### 1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

The financial report is a general purpose financial report that has been prepared in accordance with Australian Accounting Standards, including Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001.

The financial report covers the economic entity of Coal of Africa Limited and controlled entities, and Coal of Africa Limited as an individual parent entity. Coal of Africa Limited is a listed public company, incorporated and domiciled in Australia.

The financial report of Coal of Africa Limited and controlled entities, and Coal of Africa Limited as an individual parent entity comply with all Australian equivalents to International Financial Reporting Standards (AIFRS) in their entirety.

The following is a summary of the material accounting policies adopted by the economic entity in the preparation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

#### (a) Basis of Preparation

#### **Reporting Basis and Conventions**

The financial report has been prepared on an accruals basis and is based on historical costs modified by the revaluation of selected non-current assets, financial assets and financial liabilities for which the fair value basis of accounting has been applied.

#### (b) Principles of Consolidation

A controlled entity is any entity Coal of Africa Limited has the power to control the financial and operating policies of so as to obtain benefits from its activities.

A list of controlled entities is contained in note 26 the financial statements. All controlled entities have a June financial year-end.

All inter-company balances and transactions between entities in the economic entity, including any unrealised profits or losses, have been eliminated on consolidation. Accounting policies of subsidiaries have been changed where necessary to ensure consistencies with those policies applied by the parent entity.

Where controlled entities have entered or left the economic entity during the year, their operating results have been included/excluded from the date control was obtained or until the date control ceased.

Minority equity interests in the equity and results of the entities that are controlled are shown as a separate item in the consolidated financial report.

#### (c) Revenue Recognition

Revenues are recognised at fair value of the consideration received net of the amount of goods and services tax ("GST"). Exchanges of goods or services of the same nature and value without any cash consideration are not recognised as revenues.

#### Sale of goods

Revenue from the sale of nickel magnesium alloys (NiMag), ferro-nickel magnesium alloys (FeNiMag), ferro-silicon magnesium alloys (FeSiMag) and other master alloys are recognised when control of the goods passes to the customer. For local sales this is usually when the customer receives the goods. For export sales it is determined based on individual sales agreements, however, control usually passes when the goods are received by the shipping agent and the bill of lading is sighted by the customer.

#### Interest Revenue

Interest revenue is recognised as it accrues, taking into account the effective yield of the financial asset.

# Notes to and forming part of the Financial Statements for the year ended 30 June 2008

#### Sale of non-current assets

The gain or loss on disposal is calculated as the difference between the carrying amount of the asset at the time of disposal and the net proceeds on disposal.

#### (d) Mining Tenements and Exploration and Development Expenditure

Mining tenements are carried at cost, less accumulated impairment losses.

Exploration, evaluation and development expenditure incurred is accumulated in respect of each identifiable area of interest. These costs are only carried forward to the extent that they are expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves. Accumulated costs in relation to an abandoned area are written off in full against profit in the year in which the decision to abandon the area is made.

When production commences, the accumulated costs for the relevant area of interest are amortised over the life of the area according to the rate of depletion of the economically recoverable reserves.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

Costs of site restoration are provided over the life of the facility from when exploration commences and are included in the costs of that stage. Site restoration costs include the dismantling and removal of mining plant, equipment and building structures, waste removal, and rehabilitation of the site in accordance with clauses of the mining permits. Such costs have been determined using estimates of future costs, current legal requirements and technology on an undiscounted basis.

Any changes in the estimates for the costs are accounted on a prospective basis.

#### (e) Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST.

Cash flows are presented in the cash flow statement on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

#### (f) Acquisition of Assets

All assets acquired including property, plant and equipment and intangibles other than goodwill are initially recorded at their cost of acquisition at the date of the acquisition, being the fair value of the consideration provided plus incidental costs directly attributable to the acquisition. When equity instruments are issued as consideration, their market price at the date of the acquisition is used as fair value except where the notional price at which they could be placed in the market is a better indication of fair value.

# Notes to and forming part of the Financial Statements for the year ended 30 June 2008

#### (g) Property, Plant & Equipment

Each class of property, plant and equipment is carried at cost less, where applicable, any accumulated depreciation and impairment losses.

#### **Property**

Freehold land and buildings are shown at cost. The carrying amount of freehold and buildings are reviewed annually by Directors to ensure it is not in excess of the recoverable amount from these assets.

#### **Plant and Equipment**

Plant and equipment are measured on the cost basis.

The carrying amount of plant and equipment is reviewed annually by Directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

The cost of fixed assets constructed within the economic entity includes the cost of materials, direct labour, borrowing costs and an appropriate proportion of fixed and variable overheads.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Increases in the carrying amount arising on revaluation of land and buildings and property plant and equipment are credited to a revaluation reserve in equity. Decreases that offset previous increases of the same asset are charged against fair value reserves directly in equity; all other decreases are charged to the income statement. Each year the difference between depreciation based on the revalued carrying amount of the asset charged to the income statement and depreciation based on the asset's original cost is transferred from the revaluation reserve to retained earnings.

#### (h) Depreciation and Amortisation

The depreciable amount of all fixed assets including buildings and capitalised leased assets, but excluding freehold land, is depreciated on the straight line and reducing balance methods over their estimated useful lives to the economic entity commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

The depreciation and amortisation rates used for each class of assets are as follows:

|   |  | Range – 2008 | Range – 2007 |
|---|--|--------------|--------------|
| • | Furniture, fittings and office equipment | 13% - 50%    | 13% - 50%    |
| • | Motor vehicles                           | 20% - 33%    | 20% - 33%    |
| • | Plant & equipment                        | 20%          | 20%          |
| • | Leasehold Improvements                   | 25%          | 25%          |
| • | Buildings                                | 20%          | 20%          |

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the income statement. When revalued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to retained earnings.

# Notes to and forming part of the Financial Statements

### for the year ended 30 June 2008

#### (i) Impairment of Assets

At each reporting date, the Group reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed in the income statement.

Impairment testing is performed annually for goodwill and intangible assets with indefinite lives.

Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

#### (j) Income Tax

The charge for current income tax expense is based on the profit for the year adjusted for any non-assessable or disallowed items. It is calculated using the tax rates that have been enacted or are substantially enacted by the balance date.

Deferred tax is accounted for using the balance sheet liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. No deferred tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised or liability is settled. Deferred tax is credited in the income statement except where it relates to items that may be credited directly to equity, in which case the deferred tax is adjusted against equity.

Deferred income tax assets are recognised to the extent that it is probable that future tax profits will be available against which deductible temporary differences can be utilised.

The amount of benefits brought to account or which may be realised in the future is based on the assumption that no adverse change will occur in income tax legislation and the anticipation that the economic entity will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

During the 2002/03 financial year, legislation was enacted to allow groups, comprising of a parent entity and its Australian resident wholly owned entities, to elect to consolidate and be treated as a single entity for income tax purposes. The legislation, which includes both elective and mandatory elements, is applicable to the Consolidated Entity. As at 30 June 2008, the Directors of the Company have not made a decision to elect to be taxed as a single entity. The financial effect of the legislation has not been brought to account in the financial statements for the year 30 June 2008.

# Notes to and forming part of the Financial Statements for the year ended 30 June 2008

#### (k) Leases

Leases of fixed assets where substantially all the risks and benefits incidental to the ownership of the asset (but not the legal ownership) are transferred to entities in the economic entity, are classified as finance leases.

Finance leases are capitalised by recording an asset and a liability at the lower of the amounts equal to the fair value of the leased property or the present value of the minimum lease payments, including any guaranteed residual values. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Leased assets are depreciated on a straight-line basis over the shorter of their estimated useful lives or the lease term.

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.

Lease incentives under operating leases are recognised as a liability and amortised on a straight-line basis over the life of the lease term.

#### (I) Receivables

Amounts receivable from third parties are carried at amounts due. The recoverability of the debts is assessed at balance date and specific provision is made for any doubtful accounts.

#### (m) Foreign Currency Transactions and Balances

#### Functional and presentation currency

The functional currency of each of the Group's entities is measured using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars which is the parent entity's functional and presentation currency.

#### Transaction and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in the income statement, except where deferred in equity as a qualifying cash flow or net investment hedge.

Exchange difference arising on the translation of non-monetary items are recognised directly in equity to the extent that the gain or loss is directly recognised in equity, otherwise the exchange difference is recognised in the income statement.

#### **Group companies**

The financial results and position of foreign operations whose functional currency is different from the Group's presentation currency are translated as follows:

- 1. Assets and liabilities are translated at year-end exchange rates prevailing at that reporting date;
- 2. Income and expenses are translated at average exchange rates for the period; and
- 3. Retained profits are translated at the exchange rates prevailing at the date of the transaction.

Exchange differences arising on translation of foreign operations are transferred directly to the Group's foreign currency translation reserve in the balance sheet. These differences are recognised in the income statement in the period in which the operation is disposed.

# Notes to and forming part of the Financial Statements for the year ended 30 June 2008

#### (n) Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of manufactured products includes direct materials, direct labour and an appropriate portion of variable and fixed overheads. Overheads are applied on the basis of normal operating capacity. Costs are assigned on the basis of weighted average costs.

#### (o) Financial Instruments

#### Recognition

Financial instruments are initially measured at cost on trade date, which include transaction costs, when the related contractual rights and obligations exist. Subsequent to initial recognition, these instruments are measured as set out below.

#### Financial assets at fair value through profit and loss

A financial asset is classified in this category if acquired principally for the purpose of selling in the short term or if so designated by management and within the requirements of AASB 139: Financial Instruments - Recognition and Measurement. Derivatives are also categorised as held for trading unless they are designated as hedges. Realised and unrealised gains and losses arising from changes in the fair value of these assets are included in the income statement in the period in which they arise.

#### Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are stated at amortised cost using the effective interest rate method.

#### Held-to-maturity investments

These investments have fixed maturities, and it is the Group's intention to hold these investments to maturity. Any held-to-maturity investments held by the Group are stated at amortised cost using the effective interest rate method.

#### Available-for-sale financial assets

Available-for-sale financial assets include any financial assets not included in the above categories. Available-for-sale financial assets are reflected at fair value. Unrealised gains or losses arising from changes in fair value are taken directly to equity.

#### **Financial Liabilities**

Non-derivative financial liabilities are recognised at amortised cost, comprising original debt less principal payments and amortisation.

#### **Derivative Instruments**

Derivative instruments are measured at fair value. Gains and losses arising from changes in fair value are taken to income statement unless they are designated as hedges.

Coal of Africa Limited and Controlled Entities designate certain derivatives as either;

- 1. hedges of the fair value of recognised assets or liabilities or a firm commitment (fair value hedge); or
- 2. hedges of highly probable forecast transactions (cash flow hedges).

At the inception of the transaction the relationship between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking various hedge transactions is documented.

Assessments, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions have been and will continue to be highly effective in offsetting changes in fair values or cash flows of hedged items, are also documented.

# Notes to and forming part of the Financial Statements

#### for the year ended 30 June 2008

#### Fair value hedge

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in the income statement, together with any changes in the fair value of the hedge asset or liability that are attributable to the hedged risk.

#### Cash flow hedge

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is deferred to a hedge reserve in equity. The gain or loss relating to the ineffective portion is recognised immediately in the income statement.

Amounts accumulated in the hedge reserve in equity are transferred to the income statement in the periods when the hedged item will affect profit or loss.

#### Fair Value

Fair value is determined based on current bid prices for all quoted investments. Valuation techniques are applied to determine the fair value for all unlisted securities, including recent arms length transactions, reference to similar instruments and option pricing models.

#### **Impairment**

At each reporting date, the Group assess whether there is objective evidence that a financial instrument has been impaired. In the case of available-for-sale financial instruments, a prolonged decline in value of the instrument is considered to determine whether impairment has arisen. Impairment losses are recognised in the income statement.

#### (p) Goodwill

Goodwill and goodwill on consolidation are initially recorded at the amount by which the purchase price for a business or for an ownership interest in a controlled entity exceeds the fair value attributed to its net assets at date of acquisition. Goodwill on acquisition of subsidiaries is included in intangible assets. Goodwill on acquisition of associates is included in investments in associates. Goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

#### (q) Accounts Payable

Liabilities are recognised for amounts to be paid in the future for goods or services received, whether or not billed to the Company or Consolidated Entity. Trade accounts payable are normally settled within 45 days.

#### (r) Investments in Associates

Investments in associate companies are recognised in the financial statements by applying the equity method of accounting. The equity method of accounting recognised the Group's share of post-acquisition reserves of its associates.

#### (s) Employee Benefits

Provision is made for the Company's liability for employee benefits arising from services rendered by employees to balance sheet date. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled, plus related on-costs. Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits.

# Notes to and forming part of the Financial Statements for the year ended 30 June 2008

### **Equity-settled compensation**

Share-based compensation benefits are provided to employees via an Executive Share Option Scheme.

Share options granted before 7 November 2002 and/or vested before 1 July 2006

No expense is recognised in respect of these options. The shares are recognised when the options are exercised and the proceeds received allocated to share capital.

Share options granted after 7 November 2002 and/or vested after 1 July 2006

The fair value of options under the Executive Share Option Scheme is recognised as an employee benefit expense with a corresponding increase in equity. The fair value is measured at grant date and recognised over the period during which the employees become unconditionally entitled to the options.

The fair value at grant date is independently determined using a Binomial option valuation model that takes into account the exercise price, the term of the option, the vesting and performance criteria, the impact of dilution, the non-tradable nature of the option, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk-free interest rate for the term of the option.

Upon the exercise of options, the balance of the share-based payments reserve relating to those options is transferred to share capital.

#### (t) Provisions

Provisions are recognised when the Group has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

#### (u) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of twelve months or less, and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the balance sheet.

#### (v) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of assets that necessarily take a substantial period of time to prepare for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in income in the period in which they are incurred.

#### (w) Earnings per Share

Basic earnings per share ("EPS") is calculated by dividing the net profit attributable to members of the parent entity for the reporting period, after excluding any costs of servicing equity (other than ordinary shares), by the weighted average number of ordinary shares of the Company, adjusted for any bonus issue.

#### (x) Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial period.

#### (y) Critical Accounting Estimates and Judgements

# Notes to and forming part of the Financial Statements

#### for the year ended 30 June 2008

The Directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

The resulting accounting estimates and judgements may differ from the related actual results and may have a significant effect on the carrying amounts of assets and liabilities within the next financial year and on the amounts recognised in the financial statements. Information on such estimates and judgements are contained in the accounting policies and/or notes to the financial statements.

Key accounting estimates include:

- Asset carrying value and impairment charges;
- Capitalisation and impairment of exploration and evaluation expenditure.
- Critical judgements in applying the entity's accounting policies include determining:
- The effectiveness of forward foreign exchange contracts (Note 1(o)).

The Company announced in May 2008 that it has reached an agreement to dispose of its stake in Holfontein Investments (Pty) Ltd to Lachlan Star Limited for \$25 million. The acquisition consideration will be payable in a combination of cash and shares staged at key milestones and on the satisfaction of key milestones and conditions precedent. The acquirer will reimburse CoAL for a proportion of the exploration expenditure incurred. The sale milestones and conditions have not been met at 30 June 2008.

# Notes to and forming part of the Financial Statements for the year ended 30 June 2008

The Company disposed of its 26.18% interest in SA Mineral Resources Corporation Ltd ("SAMROC"), a resource company whose particular focus is the manufacture of manganese chemicals. It owns the rights to a manganese deposit near Graskop, Mpumalanga, South Africa and operates the Greenhills manganese chemical plant, which is located adjacent to the mineral deposit.

SAMROC is listed on JSE Securities Exchange South Africa ("JSE"). The closing price of SAMROC on JSE as at 30 June 2007 was ZAR0.06, or A\$0.01. The investment was previously disclosed as an Investment in Associate. CoAL previously announced its intention to dispose of the investment and, therefore, the investment was reclassified as Assets Held for Sale.

### **Impairment Disclosures**

Goodwill is allocated to cash-generating units which are based on the group's reporting segments.

|   | 2008      | 2007      |
|---|-----------|-----------|
|   | \$        | \$        |
| Manufacture & distribution of nickel & magnesium alloys | 3,169,660 | 3,964,042 |
|   | 3,169,660 | 3,964,042 |

# Notes to and forming part of the Financial Statements for the year ended 30 June 2008

The recoverable amount of the cash-generating unit above is determined based on value-in-use calculations. Value-in-use is calculated based on the present value of cash flow projections over a 5-year period. The cash flows are discounted using the yield of 5-year government bonds at the beginning of the budget period.

The following assumptions were used in the value-in-use calculations:

|   | <b>Growth Rate</b> | Discount Rate |
|---|--------------------|---------------|
| Manufacture & distribution of nickel & magnesium alloys | 10%                | 5.64%         |

Management has based the value-in-use calculations on budgets for this reporting segment. These budgets use historical weighted average growth rates to project revenue. Costs are calculated taking into account historical gross margins as well as estimated weighted average inflation rates over the periods which are consistent with inflation rates applicable to the locations in which the segment operates. Discounts are pre-tax and are adjusted to incorporate risks associated with the segment.

# COAL OF AFRICA LIMITED Notes to and forming part of the Financial Statements for the year ended 30 June 2008

|   | Consolidated Entity |            |  |  |
|---|---------------------|------------|--|--|
|   | 2008                | 2007       |  |  |
|   | \$                  | \$         |  |  |
| Capitalised exploration expenditure – at cost | 10,258,218          | -          |  |  |
|   | 139,181,620         | -          |  |  |
| Total Mining Assets                           | 174,932,316         | 67,852,973 |  |  |
| Total capitalised exploration expenditure     | 18,203,831          | 1,123,850  |  |  |

The ultimate recoupment of costs carried forward for exploration and evaluation phases is dependent on the discovery of commercially viable resource deposits and their successful development and commercial exploitation or sale of the respective mining areas. The Holfontein coal project is disclosed as an asset available for sale as at 30 June 2008.

# Notes to and forming part of the Financial Statements

## for the year ended 30 June 2008

15. INTEREST BEARING LIABILITES (cont)

The various facilities described above are secured by:

- Unlimited cession of debtors;
- Cession of fire and SASRIA policy over the farm Steenkoppies Magaliesburg for an amount of \$653,000 (ZAR5,000,000);
- Registration of a general and special notarial bond over stock, plant and equipment for an amount of \$1,959,000 (ZAR15,000,000) supported by a cession of fire and SASRIA policy;
- Unlimited suretyship by Coal of Africa Ltd;
- Unlimited suretyship by Metalloy Fibres (Pty) Ltd supported by:

Bank overdrafts, term facility and forward exchange contract facility

- Cession of its loan account in the Borrower;
- Unlimited cession of debtors;
- Limitation on Metalloy Fibres (Pty) Ltd encumbering its assets;
- Cession of offshore debtors; and
- Assets financed under the AVAF Instalment finance facility of \$20,244 (ZAR155,006).

#### Unsecured Loans (Loans from minority interests in controlled entity)

The loans are unsecured and bore interest at a rate of 8.5% during the year under review. The balance will be repaid when funds are available and can be delayed to a maximum of 5 years.

At balance date, the details of the outstanding forward exchange contracts are:

## **21. FINANCIAL RISK MANAGEMENT**

#### a. Financial Risk Management Policies

Minority interest in a controlled entity (Limpopo)

The Group's financial instruments consist mainly of deposits with banks, local money market instruments, short-term investments, accounts receivable and payable, loans to and from subsidiaries, leases, preference shares, and forward exchange contracts.

The main purpose of non-derivative financial instruments is to raise finance for group operations.

Derivatives are used by the Group for hedging purposes. Such instruments include forward exchange and currency option contracts. The group does not speculate in the trading of derivative instruments.

i. Treasury Risk Management

3,071,250

3,071,250

# Notes to and forming part of the Financial Statements

#### for the year ended 30 June 2008

A finance committee consisting of senior executives of the group meet on a regular basis to analyse financial risk exposure and to evaluate treasury management strategies in the context of the most recent economic conditions and forecasts.

The committee's overall risk management strategy seeks to assist the consolidated group in meeting its financial targets, whilst minimising potential adverse effects on financial performance.

The finance committee operates under policies approved by the Board of Directors. Risk management policies are approved and reviewed by the Board on a regular basis. These include the use of hedging derivative instruments, credit risk policies and future cash flow requirements.

#### ii. Financial Risk Exposures and Management

The main risks the Group is exposed to through its financial instruments are interest rate risk, foreign currency risk, liquidity risk, credit risk and price risk.

#### Interest rate risk

Interest rate risk has been reduced by the Company repaying it's outstanding long term debt.

#### Foreign currency risk

The Group is exposed to fluctuations in foreign currencies arising from having deposits in various currencies as well as the sale and purchase of goods and services in currencies other than the group's measurement currency.

#### Liquidity risk

The Group manages liquidity risk by monitoring forecast cash flows and ensuring that adequate unutilised borrowing facilities are maintained. The group's current policy is to ensure no more than 10% of borrowings should mature in any 12 month period. This is expected to alter in the 2009 financial period as debt is incurred to finance the acquisition of assets with varying expected rates of return.

#### Credit risk

The maximum exposure to credit risk, excluding the value of any collateral or other security, at balance date to recognised financial assets, is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the balance sheet and notes to the financial statements.

Credit risk is managed on a group basis and reviewed regularly by the finance committee. It arises from exposures to customers as well as through certain derivative financial instruments and deposits with financial institutions.

The finance committee monitors credit risk by actively assessing the rating quality and liquidity of counter parties:

- only banks and financial institutions with an 'A' rating are utilised;
- all potential customers are rated for credit worthiness taking into account their size, market position and financial standing; and
- customers that do not meet the Group's strict credit policies may only purchase in cash.

The Group only invests in listed available-for-sale financial assets that have a minimum 'A' credit rating. Unlisted available-for-sale financial assets are not rated by external credit agencies. These are reviewed regularly by the Group to ensure that credit exposure is minimised.

The credit risk for counterparties included in trade and other receivables at 30 June 2008 is detailed below:

|                             | Consolidated Group |            | Parent Entity |            |
|-----------------------------|--------------------|------------|---------------|------------|
|                             | 2008<br>\$         | 2007<br>\$ | 2008<br>\$    | 2007<br>\$ |
| Trade and other receivables |                    |            |               |            |
| AA rated counterparties     | 4,733,193          | -          | -             | -          |
| B rated counterparties      | -                  | -          | -             | -          |
| Counterparties not rated    | 7,018,404          | 8,984,168  | 1,288,245     | 4,903,348  |

# Notes to and forming part of the Financial Statements

#### for the year ended 30 June 2008

|       | •          |           |           | _         |
|-------|------------|-----------|-----------|-----------|
| Total | 11,751,597 | 8,984,168 | 1,288,245 | 4,903,348 |

Credit risk for derivative financial instruments arises from the potential failure by counter-parties to the contract to meet their obligations. The credit risk exposure to forward exchange contracts is the net fair value of these contracts as disclosed below.

The consolidated Group does not have any material credit risk exposure to any single receivable or group of receivables under financial instruments entered into by the consolidated Group.

Concentration of credit risk on trade and term debtors has reduced during the year in respect of the business undertaken by Nimag. As at 30 June 2008, 32% (2007: 94%) of the Consolidated Entity's trade debtors were owed by United States and European customers, 29% by South African debtors and 20% by customers in Asia.

Other than the concentration of credit risk described above, the Consolidated Entity is not materially exposed to any individual overseas country or individual customer.

The aging of the Group's trade receivables at the reporting date was:

|   | Gross<br>2008<br>\$   | Impairment<br>2008<br>\$ | Gross<br>2007<br>\$ | Impairment<br>2007<br>\$ |
|---|-----------------------|--------------------------|---------------------|--------------------------|
| Not past due  | 2,610,812             | -                        | 4,162,224           | -                        |
| Past due 0-30 days  | 680,666               | -                        | 294,070             | -                        |
| Past due 31-120 days Past due 121 days to one year More than one year | 48,413<br>-<br>-<br>- | -                        | 67,862              | -<br>-<br>-              |
|   | 3,339,890             | -                        | 4,524,156           |                          |

Based on historic default rates, the Group believes that no impairment allowance is necessary in respect of trade receivables.

#### Price risk

The Group is exposed to commodity price risk through its Nimag Group of subsidiaries. Nickel prices have been volatile on the London Metals Exchange over the past three years but the company is able to hedge a significant amount of the Nickel price risk in its pricing agreement with customers, therefore the Nimag Group does not currently hedge the price it sells its Nickel products at. Nickel as well as base metal futures markets and economic forecasts are constantly monitored to determine whether to implement a hedging policy. CoAL Management also monitor the price of coal on global markets with the expected sale of coal mined from the Company's Mooiplaats coal project in the 2009 financial year.

### b. Financial Instruments

#### i. Derivative Financial Instruments

Derivative financial instruments are used by the consolidated group to hedge exposure to exchange rate risk associated with foreign currency borrowings and interest rate risk associated with

# Notes to and forming part of the Financial Statements for the year ended 30 June 2008

movements in interest rates which impact on the borrowings of the consolidated group. Transactions for hedging purposes are undertaken with the use of minimum collateral as only reputable institutions with sound financial positions are dealt with.

### Forward Exchange Contracts

The consolidated Group enters into forward exchange contracts to buy and sell specified amounts of foreign currencies in the future at stipulated exchange rates. The objective in entering the forward exchange contracts is to protect the consolidated group against unfavourable exchange rate movements for both the contracted and anticipated future sales and purchases undertaken in foreign currencies.

The accounting policy in regard to forward exchange contracts is detailed in Note 1(o).

At balance date, the details of outstanding forward exchange contracts are:

|                                | Consolidated      | Parent Entity |      |      |   |  |

# Notes to and forming part of the Financial Statements for the year ended 30 June 2008

#### iii. Net Fair Values

The net fair values of:

- Term receivables are determined by discounting the cash flows, at the market interest rates of similar securities, to their present value.
- Listed investments have been valued at the quoted market bid price at balance date, adjusted
  for transaction costs expected to be incurred. For unlisted investments where there is no
  organised financial market, the net fair value has been based on a reasonable estimation of
  the underlying net assets or discounted cash flows of the investment.
- Other loans and amounts due are determined by discounting the cash flows, at market interest rates of similar borrowings, to their present value.
- Forward exchange contracts are the recognised unrealised gain or loss at balance date determined from the current forward exchange rates for contracts with similar maturities.
- Other assets and other liabilities approximate their carrying value.

No financial assets and financial liabilities are readily traded on organised markets in standardised form other than listed investments and forward exchange contracts.

No financial assets have been identified where the carrying amount exceeds net fair values. Controlled financial assets are carried at cost (refer note 10).

Aggregate net fair values and carrying amounts of financial assets and financial liabilities at balance date.

|   | 36,959,594            | 36,959,594           | 9,078,764          | 9,078,764            |
| Financial Liabilities                             |                       |                      |                    |                      |
| Payables  | 6,179,806             | 6,179,806            | 9,319,361          | 9,319,361            |
| Other liabilities                                 | 187,626               | 187,626              | 505,261            | 505,261              |
|   | 6,367,432             | 6,367,432            | 9,824,622          | 9,824,622            |

Fair values are materially in line with carrying values. A discount rate of 0% (2007: 0%) has been applied to all non-current borrowings to determine fair value.

### iv. Sensitivity Analysis

#### Interest Rate Risk, Foreign Currency Risk and Price Risk

The Group has performed sensitivity analysis relating to its exposure to interest rate risk, foreign currency risk and price risk at balance date. This sensitivity analysis demonstrates the effect on the current year results and equity which could result from a change in these risks.

Interest Rate Sensitivity Analysis

At 30 June 2008, the effect on profit and equity as a result of changes in the interest rate, with all other variables remaining constant would be as follows:

|        |                                 | Consolidated | Group      | Parent Entity |            |
|--------|---------------------------------|--------------|------------|---------------|------------|

| _     | Decline in AUD to USD by 10%     | (22,835)           | (117,259) | -             |      | - |
| Chang | ge in Equity                     |                    |           |               |      |   |
| -     | Improvement in AUD to USD by 10% | 22,835             | 117,259   | -             |      | - |
| _     | Decline in AUD to USD by 10%     | (22,835)           | (117,259) |               |      | - |

#### Price Risk Sensitivity Analysis

At 30 June 2008, the effect on profit and equity as a result of changes in the price risk, with all other variables remaining constant would be as follows:

|        |   | Consolida   | ted Group   | Parent Entity |            |  |
|--------|---|-------------|-------------|---------------|------------|--|
|        |   | 2008<br>\$  | 2007<br>\$  | 2008<br>\$    | 2007<br>\$ |  |
| Change | in profit                                     |             |             |               |            |  |
| _      | Increase in average nickel price by 10%/tonne | 4,680,205   | 6,173,865   | -             | -          |  |
| _      | Decrease in average nickel price by 10%/tonne | (4,680,205) | (6,173,865) | -             | -          |  |
| Change | e in Equity                                   |             |             |               |            |  |
| -      | Increase in average nickel price by 10%/tonne | 4,680,205   | 6,173,865   | -             | -          |  |
| _      | Decrease in average nickel price by 10%/tonne | (4,680,205) | (6,173,865) | -             | -          |  |

The above interest rate, foreign exchange rate and price risk sensitivity analysis has been performed on the assumption that all other variables remain unchanged.

#### 22. SHARE-BASED PAYMENTS

The following share-based payment arrangements existed at 30 June 2008:

On the 28 June 2006, 8,000,000 share options to accept ordinary shares in Coal of Africa Limited were granted to CoAL Directors. The options allow the Directors to take up ordinary shares at an exercise price of \$0.50 each. The options are exercisable on or before 30 September 2011. The options hold no voting or dividend rights and are not transferable. Upon conversion, of the options to shares, the shares will rank equally with existing shares. At reporting date, none of the options had been taken up or had lapsed.

# Notes to and forming part of the Financial Statements for the year ended 30 June 2008

On 24 November 2006, 1,000,000 share options to accept ordinary shares in Coal of Africa Limited were granted to employees in South Africa as an incentive for performance. The options have an exercise price of \$0.50 each and are exercisable on or before 30 September 2011. The options hold no voting or dividend rights and are not transferable. Upon conversion, of the options to shares, the shares will rank equally with existing shares. At reporting date, none of the options had been taken up or had lapsed.

On 29 May 2007, 555,575 share options at GBP0.54 (to Mirabaud Securities Limited and Blue Oar Securities Plc) exercisable before 31 May 2009, 786,751 share options at GBP0.34 exercisable before 17 May 2009 (to Mirabaud Securities Limited and Blue Oar Securities Plc) and 250,000 share options exercisable at \$0.50 (to Jonathan Colville of Mirabaud Securities Limited) before 30 September 2011 were granted to accept ordinary shares in Coal of Africa Limited. The options were part payment of brokerage fees in relation to recent placements. The options hold no voting or dividend rights and are not transferable. All of the options were exercised on 7 May 2008 converting the options to shares ranking equally with existing shares.

On 5 June 2007, 7,000,000 share options to accept ordinary shares in Coal of Africa Limited were granted to Simon Farrell (Managing Director – 5,000,000 options) and Richard Linnell (Chairman – 2,000,000 options). The options allow the Directors to take up ordinary shares at an exercise price of \$1.25 each. The options are exercisable on or before 30 September 2012. The options hold no voting or dividend rights and are not transferable. Upon conversion, of the options to shares, the shares will rank equally with existing shares. At reporting date, none of the options had been taken up or had lapsed.

On 5 June 2007, 4,250,000 share options to accept ordinary shares in Coal of Africa Limited were granted to Motjoli Resources (Pty) Ltd for 51% of the Holfontein coal project and the remaining 50% of the Baobab coal project. The options allow Motjoli Resources to take up ordinary shares at an exercise price of \$0.50 each. The options were exercisable on or before 30 September 2011. The options hold no voting or dividend rights and are not transferable. All of the options were exercised on 23 May 2008 converting the options to shares ranking equally with existing shares.

On 28 November 2007, 1,625,000 share options at GBP0.65 (to Mirabaud Securities Limited and Blue Oar Securities Plc) exercisable before 30 November 2009 and 375,000 share options at \$1.50 exercisable before 30 November 2009 (to Euroz Limited) were granted to accept ordinary shares in Coal of Africa Limited. The options were part payment of brokerage fees in relation to recent placements. The options hold no voting or dividend rights and are not transferable. On 5 June 2008, 375,000 options were exercised at \$1.50 converting the options to shares ranking equally with existing shares.

On 20 December 2007, 590,063 share options at GBP0.34 issued to Mirabaud Securities Limited on 29 May 2007 and exercisable before 30 September 2011 were exercised. The options exercised converting the options to shares rank equally with existing shares.

On 10 April 2008, 1,000,000 share options to accept ordinary shares in Coal of Africa Limited were granted to Blair Sergeant (Financial Director). The options allow the Financial Director to take up ordinary shares at an exercise price of \$1.90 each. The options are exercisable on or before 30 September 2012. The options hold no voting or dividend rights and are not transferable. Upon conversion, of the options to shares, the shares will rank equally with existing shares. At reporting date, none of the options had been taken up or had lapsed.

On 19 May 2008, 600,000 share options at an exercise price of \$1.25 and 250,000 share options at an exercise price of \$2.05 to accept ordinary shares in Coal of Africa Limited were granted to employees in South Africa as an incentive for performance. The options are exercisable on or before 1 May 2012 and hold no voting or dividend rights and are not transferable. Upon conversion of the options to shares, the shares will rank equally with existing shares. At reporting date, none of the options had been taken up or had lapsed.

All options granted are ordinary shares in Coal of Africa Limited, which confer a right of one ordinary share for every option held.

| Outstanding at year end          | 19,921,688        | 0.95                            | 21,842,326        | 0.77                            | 19,921,688        | 0.95                            | 21,842,326        | 0.77                            |  |
| Exercisable at year end          | 19,171,688        | 0.91                            | 21,842,326        | 0.77                            | 19,171,688        | 0.91                            | 21,842,326        | 0.77                            |  |

No options expired during the year ended 30 June 2008. The following options were exercised during the year:

| Class           | Date Exercised   | Exercise price | Number of options exercised |
|-----------------|------------------|----------------|-----------------------------|
| Class C options | 20 December 2007 | GBP 0.34       | 590,063                     |
| Class B options | 7 May 2008       | GBP 0.54       | 555,575                     |
| Class A options | 23 May 2008      | \$ 0.50        | 4,250,000                   |
| Class F options | 5 June 2008      | \$ 1.50        | 375,000                     |
|                 |                  |                | 5,770,638                   |

The options outstanding at 30 June 2008 had a weighted average exercise price of \$0.95 and weighted average remaining contractual life of 3.51 years. Exercise prices range from \$0.50 to \$2.05 in respect of options outstanding at 30 June 2008.

The weighted average fair value of the options granted during the year was \$1.48.

This option prices were calculated using the Binomial Option Valuation pricing model applying the following inputs:

| Weighted average exercise price     | \$0.96        |
|-------------------------------------|---------------|
| Weighted average life of the option | 3.51 years    |
| Underlying share price              | \$1.70-\$3.84 |
| Expected share price volatility     | 75%           |
| Risk free interest rate             | 6.5%          |

Historical volatility has been the basis for determining expected share price volatility as it is assumed that this is indicative of future tender, which may not eventuate.

The life of an option is based on the historical exercise patterns, which may not eventuate in the future.

Included under employee benefits expense in the income statement is \$4,099,000 (2007: \$3,294,600), and relates, in full, to equity-settled share-based payment transactions.

|  | 912,502    | 59,983     | 75,621  | -    |

The Consolidated Entity leases property under non-cancellable operating leases expiring within the next five years. Leases generally provide the Consolidated Entity with a right of renewal at which time all terms are renegotiated.

#### **Contractual Commitments**

#### Holfontein

CoAL has undertaken that it will first mine all saleable seam 5 and thereafter seams 4 and 2 coal reserves in the Holfontein coal project in accordance with the prospecting work programme previously submitted to the Department of Minerals and Energy. Deviation from this can be made provided it is supported by a report prepared by an independent person appointed by the parties. In the event of the other seams other than seam 5 being mined, a development fee will be payable to the vendor - the development fee will be five million tonnes at a minimum of ZAR4.00 per tonne FOT. CoAL has entered an agreement to dispose of the Holfontein cola project and this development fee will be transferred to the acquirer on the successful sale of the Holfontein project.

#### Tshikunda

The Company has entered an agreement to purchase 60% of Tshikunda Mining (Pty) Ltd, which holds the New Prospecting Rights over an area of 32,000 hectares in the Limpopo province. Section 11 approval for the transaction was obtained in June 2008 and the Company has paid ZAR15 million of the ZAR20 million with the balance purchase price payable in CoAL equity. CoAL has undertaken to spend up to ZAR50 million (\$6.53 million) to explore the project to a bankable stage.

#### Sekoko

CoAL has entered an agreement to acquire 74% of the New Order Prospecting Rights on six farms belonging to Sekoko Coal (Pty) Ltd. The farms will be transferred to a newly acquired shelf company (Regulus Investment Holdings (Pty) Ltd) upon obtaining Section 11 approval from the DME which was applied for in May 2008. ZAR20 million (\$2.6 million) of the purchase price has been paid with the remaining ZAR35 million (\$4.57 million) of the purchase price held as a bank guarantee payable on Section 11 approval of the transaction. The Section 11 application to transfer 74% of the New Order Prospecting Rights was lodged with the Department of Minerals and Energy in May 2008. The Company has committed to spending up to ZAR55 million (\$7.18 million) on exploration work to determine whether the project is feasible.

#### 24. CONTINGENT LIABILITIES

In accordance with normal industry practice the Company has agreed to provide financial support to its 100% controlled entities. There are no other contingent liabilities as at 30 June 2008.

# Notes to and forming part of the Financial Statements for the year ended 30 June 2008

| Mr G Taggart    | -           | -         | -                       | -     | -            |
| Mr N Moloi (1)  | 29,289,538  | -         | -                       | -     | -            |
| Mr B Sergeant   | -           | -         | -                       | -     | -            |

(1) Ms N Mazwai and Mr N Moloi are Directors and shareholders of Motjoli Resources (Pty) Ltd which owns 20,920,970 shares. These shares have been included in each of their holdings. Both Ms N Mazwai and Mr N Moloi resigned as Directors on 22 January 2008.

#### Loans and Other Transactions with Directors and other Key Management Personnel

Details regarding loans outstanding at the reporting date from Directors and other key management personnel are as follows:

 Certain key management personnel have provided unsecured loans in the amount of ZAR1,436,833 (2007: ZAR3,040,710), bearing interest at 9.5% per annum. Repayments of the balance will occur when funds are available and can be delayed for a maximum of 5 years.

### Other Transactions with the Company or its Controlled Entities

A number of Directors or their personally-related entities hold positions in other entities that result in them having control or significant influence over the financial or operating policies of those entities.

A number of those entities transacted with the Company or its subsidiaries during the financial year. The terms and conditions of those transactions were no more favourable than those available, or which might reasonably be expected to be available, on similar transactions to unrelated entities on an arm's length basis.

# Notes to and forming part of the Financial Statements for the year ended 30 June 2008

The aggregate expense recognised during the year relating to specified Directors or their personally-related entities were \$27,083. Details of the transactions are as follows:

|                     |                          |      | 2008   | 2007   |
|---------------------|--------------------------|------|--------|--------|
| Specified Directors | Transaction              | Note | \$     | \$     |
|                     |                          |      |        |        |
| Mr B Sergeant       | Company secretarial fees | (i)  | 27,083 | 72,750 |

<sup>(</sup>i) The Company engaged Evolution Capital Partners to provide certain company secretarial, accounting and administrative services to the Consolidated Entity. Mr Sergeant is Managing Director of Evolution Capital Partners.

#### **Secondary reporting**

#### **Geographical segments**

In presenting information on the basis of geographical segments, segment revenue is based on the geographical location of income generated from equity investments. Segment assets are based on the geographical location of the assets.

The Consolidated Entity has equity interests in an exploration and mining company listed in the United Kingdom, an unlisted trading company in Jersey, one listed and one unlisted manufacturing company and three unlisted exploration companies in South Africa and a biotechnology company listed in Australia.

#### 29. SUBSEQUENT EVENTS

### **Rio Tinto Joint Venture and Farm Swap**

CoAL announced in early July 2008 that it has entered a Memorandum of Understanding with Rio Tinto ('Chapudi Coal') and its joint venture partner, the Kwezi Group of South Africa, which the parties intend to formalise into an agreement resulting in the transfer of Prospecting Rights to each other or a separate joint venture initiative. The Prospects to be transferred are coal interests in and around the Company's Makhado hard coking coal project in the Limpopo province. The Prospects to be transferred to a new joint venture between Rio Tinto and CoAL will be managed by Chapudi Coal. Transfer of the Prospects will add significant, highly prospective acreage to the current Makhado project area improving the economics of the project.

# Notes to and forming part of the Financial Statements for the year ended 30 June 2008

#### Makhado coking coal project Resource Upgrade

In July 2008, CoAL announced a resource upgrade to the Makhado coal project from the previously reported 713mt to 1.335 billion gross in situ tones. The resource upgrade is a result of further analysis of the borehole data acquired from Exxaro Resources Limited as well as the drilling of boreholes by CoAL. The 1.335 billion tonnes are situated on six farms representing approximately 40% of the Makhado project area and can be summarized as follows:

|                | In Situ Resource<br>Million metric tonnes | Rel Tonnes % | Opencast<br>Million metric tonnes | Rel Tonnes % |
|----------------|---|--------------|-----------------------------------|--------------|
| Measured       | 230.067                                   | 17.233%      | 208.364                           | 37.847%      |
| Indicated      | 548.642                                   | 41.095%      | 201.797                           | 36.690%      |
| Inferred       | 250.690                                   | 18.777%      | 25.445                            | 4.613%       |
| Reconnaissance | 305.660                                   | 22.895%      | 114.771                           | 20.853%      |
|                | 1,335,06                                  | 100.00%      | 550.377                           | 100.00%      |

#### Vele semi-soft coking coal project Resource Upgrade

As a result of analysis of exploration data, the Company issued a Resource upgrade for its Vele coal project increasing the resource from 441 gross in situ tonnes to 721 total in situ tonnes which incorporates 641 gross in situ tonnes. The table below details the upgrade:

| Total In Situ |         | Gross In Situ                                   | In Situ Mineable   |  |  |  |  |
|---------------|---------|---|--|--|--|--|--|
| 721<br>tonnes | million | 641 million tonnes                              | 593 million tonnes – includes 158 million tonnes Measured and 324 million tonnes Indicated |  |  |  |  |
| ,             |         | (Gross in situ incorporates open castable coal) | ole (In situ Mineable incorporates potential geological losses)                            |  |  |  |  |

#### **Black Empowerment Transaction**

Coal Investments Limited, a company forming part of the Company's current Black Empowerment Enterprise Investors increased its shareholding in the Company to approximately 17.3% after receiving FIRB approval to increase its stake beyond 15%. During August, CoAL issued the additional 12,000,000 shares at GBP1.30 per share raising an additional GBP15.6 million.

#### **Port Allocation**

Coal of Africa Limited secured long term export coal port allocation at the Grindrod operated Richards Bay and Maputo dry bulk terminals. The export of metallurgical coal mined at its Makhado and Vele projects is expected to take place via the Maputo terminal and CoAL has secured the rights to up to 100% of the capacity resulting from expansion to the Maputo terminal enabling CoAL to potentially export up to 7mtpa. The export of thermal coal mined at the Company's Mooiplaats project will be exported at the Richards Bay terminals with an allocation of 900,000 tonnes commencing in 2009 which could increase to 3 million tonnes per annum if port capacity is increased. The Company will contribute capital on a pro rata basis to development at both the Richards Bay and Maputo terminals.

Other than that stated above, there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company, to affect significantly the operations of the Consolidated Entity, the results of those operations, or the state of affairs of the Consolidated Entity, in future financial years.

### **30. CHANGE IN ACCOUNTING POLICY**

The following Australian Accounting Standards have been issued or amended and are applicable to the parent and consolidated group but are not yet effective. They have not been adopted in preparation of the financial statements at reporting date.

| AASB Amendment  | St                                   | andards Affected                                     | Outline of Amendment   | Application Date of Standard | Application Date for Group |
|---|--------------------------------------|--|--|------------------------------|----------------------------|
| AASB 2007–3<br>Amendments to<br>Australian                            | for Sale and Discontinued Operations |  | The disclosure requirements of AASB 114: Segment Reporting have been   | 1.1.2009                     | 1.7.2009                   |

# INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF COAL OF AFRICA LIMITED

#### Report on the Financial Report

We have audited the accompanying financial report of Coal of Africa Limited (the company) and Coal of Africa Limited and Controlled Entities (the consolidated entity), which comprises the balance sheet as at 30 June 2008, and the income statement, statement of changes in equity and cash flow statement for the year ended on that date, a summary of significant accounting policies and other explanatory notes and the directors' declaration of the consolidated entity, comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

#### Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This responsibility includes establishing and maintaining internal control relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances. In Note 1, the directors also state, in accordance with Accounting Standard AASB 101: Presentation of Financial Statements, that compliance with the Australian equivalents to International Financial Reporting Standards (IFRS) ensures that the financial report, comprising the financial statements and notes, complies with International Financial Reporting Standards.

#### Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, provided to the directors of Coal of Africa Limited on 30 September 2008, would be in the same terms if provided to the directors as at the date of this auditor's report

Auditor's Opinion In our opinion:

- a. the financial report of Coal of Africa Limited and Coal of Africa Limited and Controlled Entities is in accordance with the *Corporations Act 2001*, including:
  - (i) giving a true and fair view of the company's and consolidated entity's financial position as at 30 June 2008 and of their performance for the year ended on that date; and
  - (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Regulations 2001; and
- b. the financial report also complies with International Financial Reporting Standards as disclosed in Note 1.

### **Report on the Remuneration Report**

We have audited the Remuneration Report included in pages 14 to 15 of the directors' report for the year ended 30 June 2008. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with Section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

### Auditor's Opinion

In our opinion, the Remuneration Report of Coal of Africa Limited for the year ended 30 June 2008 complies with Section 300A of the *Corporations Act 2001*.
