3. Review of Activities

Highlights

- Shares commenced trading on the Johannesburg Stock Exchange ("JSE") on 30 November 2006.
- Audit reviewed Group profit before interest and tax of A\$ 2 million for the first six months of the year.
- Cash at the end of the half year was A\$ 10.7 million.
- 12,200,000 GVM shares to raise GBP 2.44 million (A\$ 6.1 million) placed with Global Coal Management plc (previously Asia Energy plc).
- GVM executed a binding Sale of Shares and Claims Agreement to acquire 100% of Baobab Mining and Exploration (Pty) Ltd which owns the remaining 50% of the Baobab J.V. coal project. The remaining 50% is currently held by Motjoli Resources, which GVM has previously agreed to acquire.
- Granting of Section 11 approval in terms of the South African Mineral and Petroleum Resources
 Development Bill satisfying the last remaining condition to acquire the Limpopo Coal project. As a
 result, in November 2006, 20,812,500 GVM shares were issued to the Limpopo Coal vendors.
- GVM exercised its call option to acquire the outstanding 26% of Nimag (Pty) Ltd by the allotment of 4,620,557 GVM shares and a cash payment of AU\$ 75,000.

DIRECTORS' REPORT

Post period highlights

- Heads of Agreement reached to acquire Kelso Mining Ltd for GBP 10.0 million which allows GVM to
 acquire 70% of Coal of Africa Ltd (CoAL) which owns the Mooiplaats coal project. This is subject to an
 EGM. A Competent Persons Report ('CPR') is currently being prepared and it is a condition of the
 acquisition of CoAL that the CoAL properties contain a JORC and SAMREC compliant resource in
 excess of 450 million tonnes of coal.
- Further placement of 8,333,333 GVM shares to raise GBP 2.5 million (AU\$ 6.25 million). This is also subject to an EGM.

Discussion of the Results

NiMag Group of Companies ("Nimag") (GVM - 100%)

The Nimag Group's reviewed profit before interest and tax for the first six months of the 2007 financial year is ZAR 19 million (A\$ 3.5 million). The Nickel Magnesium business continued to outperform its budget, whilst the smaller FeSiMag and Fibres businesses reported a combined loss of A\$ 265,000 for the first six months of the financial year. Management expect the FeSiMag and Fibres businesses to return to profitability in the second half of the financial year. Continued exchange rate levels and high nickel prices signify a positive outlook for the second half of the financial year.

Holfontein Coal Project (49% now - 100% on completion of Motjoli acquisition)

The Holfontein in-fill drilling programme will be completed by the end of the third quarter of the current financial year. Drilling results already analysed have identified metallurgical and thermal coal deposits typical to the region. Geo-hydrological studies commenced in late 2006 and will be completed prior to the bankable feasibility study which is anticipated hopefully no later than the end of March 2007.

Baobab Coal Project (100% on completion of acquisitions)

The acquisition of Petmin's 50% interest in the Baobab coal project will take the form of GVM acquiring 100% of Baobab Mining & Exploration (Pty) Ltd, a Petmin subsidiary company. The purchase consideration of GBP 2.5 million (A\$ 6 million) cash is subject to GVM obtaining shareholder, ASX (if required) and South African Reserve Bank approval, as well as approval in terms of Section 11 of the Mineral and Petroleum Resources Development Bill of South Africa.

Limpopo Coal Project (74%)

During December, GVM secured Section 11 approval in terms of the Mineral and Petroleum Resources Development Bill of South Africa, satisfying the last of the conditions precedent of the Limpopo Coal transaction. Shortly thereafter, GVM issued the required share consideration and the acquisition was settled and completed at the end of 2006.

Additional exploration of the Limpopo Coal area was commissioned during the second quarter of the financial year, together with the collection of geo-scientific data. The data collected will be used to generate a geological model of the project and identify potential drilling targets.

Preliminary discussions with various infra-structure participants are underway to ascertain capacity for possible coal exports. Furthermore, consultations with surface right owners commenced in 2006 and will continue in 2007 in conjunction with the Aeromag and geological surveys.

Directors' Responsibility for the Half-Year Financial Report

The company's and controlled entities' directors are responsible for the preparation and fair presentation of the half-year financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Act 2001. This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and fair presentation of the half-year financial report that it is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410: "Review of an Interim Financial Report Performed by the Independent Auditor of the Entity", in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the Corporation Act 2001 including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2006 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134: "Interim Financial Reporting" and the Corporations Regulations 2001. As the auditor of GVM Metals Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the financial report.

A review of the half-year financial report consists of making enquiries, primarily of persons responsible for the financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have followed applicable independence requirements of Australian professional ethical pronouncements and the Corporations Act 2001.

In accordance with ASIC Class Order 05/83, we declare to the best of our knowledge and belief that the auditor's independence declaration set out in the financial report has not changed as at the date of providing our audit report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of GVM Metals Limited and controlled entities is not in accordance with:

- (a) the Corporations Act 2001, including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 31 December 2006 and of its performance for the half-year ended on that date; and
